When you're in pain, you want to get treatment at a place that lifts you. That's what Erin believes, that's what brought her to Elite Physical Therapy, and that's the feeling she tries to give every patient that walks through Elite's doors.

Erin also works to share our story with those who don't even know us yet - physicians, potential patients, and the community - spreading the word of Elite's commitment to personalized, precise, and compassionate physical therapy.
