## Michael Hauber

**Michael Hauber**, Physical Therapist

- B.S., University of Kansas, 2012
- D.P.T., Rockhurst University, 2015

To this day, Michael still struggles to keep up with his family. Because he grew up in an active household—his parents and two sisters were always playing Frisbee, badminton, hiking, biking, speed-walking—he views movement as a lifestyle, a way to connect to others and to challenge yourself.

He brings that philosophy to Elite—working one-on-one with his patients to improve their movement and their lives, even in the smallest way. With Elite, he joined another family that pushes him professionally through continuing education, reading and practical application to be the best physical therapist he can be for each and every one of his patients.

Michael's specialties include:

- Manual therapy
- Orthopedics
- Differential diagnosis
- Spine care
- Natural Movement Fitness
